How Will UNSC Resolution 2334 Affect Israel and What May Come Next?

by

Prof. Avi Bell

Bar-Ilan University Faculty of Law
& University of San Diego Law School

The United Nations Security Council approved Resolution 2334 on December 23 after the US reversed its traditional policy and abstained. Israelis from across the political spectrum denounced the American refusal to veto the resolution as a betrayal; the Obama Administration described its vote as nothing more than a reaffirmation of longstanding US positions. How will Resolution 2334 affect Israel, and what are its legal effects? Are more surprises in store during the final days of the Obama Administration?

Prof. Bell received law degrees from the Univ. of Chicago and Harvard Univ. He clerked for Justice Mishael Cheshin of the Supreme Court of Israel. He is a highly sought-after expert on international law and the Arab-Israeli conflict.
